

11-6-313 Types of Signs

(5) Awning Sign,

Sign Districts where allowed – Permitted in all non-residential Sign Districts; however, back lit awnings are not permitted in Sign District A. Awning signs are allowed to project into the public right-of-way in Sign District A on buildings with no front setback.

Permit Required – A sign permit is required. An encroachment permit is required, when located over a public sidewalk.

Location – Awning signs shall be attached parallel to a wall of a main building of a business where wall signs are allowed.

Height/ Area – The sign area may include up to 40% of all awning surfaces; however, back-lit awnings may include up to 100% of the awning surface. The area shall be calculated as part of the wall sign area. The awning shall meet clearance requirements as described in the General Provisions.
